 REGENCY®

CITY SERIES

MODERN DESIGNER FIREPLACES WITH NO LIMITATIONS

regency-fire.com

modern fireplaces with no limitations

The Regency City Series of modern gas fireplaces offer unmatched design flexibility, quality, and contemporary styling. These stunning fireplaces create a unique focal point in your home and provide the calming ambiance of a large fire with just the push of a button.

Learn more here:

multiple configurations available

NEW YORK VIEW
Single Sided

A simple yet elegant statement that ties your living space together and elevates any wall with its seamless, linear look.

CHICAGO CORNER
Corner Left or Right

Provides design freedom due to its ability to act as a show stopping standalone or a flattering accent in any area.

SAN FRANCISCO BAY
Three Sided

Creates a focal point that sparks conversations and creates a comforting ambiance in your home.

SANTA MONICA PIER
Pier Left or Right

Allows you to enjoy dynamic views from all angles in your living space as you lounge in the warmth of vivid flames.

SEATTLE SEE-THROUGH
See-Through

Versatile architectural element allows you to enjoy a clear, frameless view of the fire from two rooms.

unlimited finishes - no limits. no restrictions.

Designed to maintain a cool wall to accommodate custom finishes right to the edge of your fireplace. Complete your fireplace look with:

- Wood
- Marble
- Glass
- Metal
- Tile
- Fabric
- Wallpaper
- Textured Panel
- Embossed Panel
- Faux Stone

• 3D Wall Panel

• Herringbone Wood Panel

Andiron Lava Embers - Black

Crushed Glass - Black Coal

Crushed Glass - Ginger

Crushed Glass - Iceberg

Crystals - Black

Crystals - Copper

choose your look

Integrated accessories with warm realistic firebed. Relaxed, natural flames rise from a richly detailed bed of logs, stones, crystals, or crushed glass media options.

view of the flames

San Francisco Bay 72 shown with black reflective crystals, volcanic stones in tan and black inner steel panels.

extended view panels

Flush to wall extended view panels center the fire, enhance opulence, and create visual balance. Through this extension, these black glass reflective panels create a sleek look that is complimentary to various architectural elements.

- Create the illusion of a larger fireplace
- Establish balance on a multi-function fireplace feature wall
- Black glass reflective finish amplifies the flame experience
- Can be used on New York 40, 50, 60 & 72 models to extend the length by 24"

1

In this photo, the fireplace is overshadowed by a large television, creating a top heavy fireplace feature wall

2

In this photo, the fireplace achieves visual prominence and balance with the addition of black glass extended view panels

corner installation kit

The corner installation kit transforms a San Francisco Bay 50, 60 or 72 into a Chicago Corner creating a stunning large-faced corner unit unlike anything you have ever seen before.

controllable warmth

FLEXIBLE VENTING OPTIONS

Regency's patented cool wall system releases heat at ceiling level which helps evenly distribute the airflow throughout the living space. Through this natural convection of air, excessive radiant heat is reduced and you are able to enjoy the utmost comfort and lounge in the warmth of beautiful flames more often.

- Enjoy the flexibility to choose from 3 different chase vent solutions
- Release warmth into the room discreetly

Front

Side(s)

Top

APP CONTROL

Put the power of flame directly in your hand. With the Proflame Connect Plus App, you can take control of your fireplace turning it on/off, adjusting the flame height, and temperature of your gas fireplace directly on your smartphone. The optional Wi-Fi enabled module provides the ultimate fireplace control.

cool wall system

Our patented cool wall system helps maintain the perfect wall surface temperature around the fireplace. The floating glass safety barrier draws in the cool air which is split between the heat exchanger and the inside wall surface. Within the heat exchanger, the air is heated and then directed out the back of the fireplace.

heat distribution kit

Increase the effectiveness of your fireplace by dispersing warm air from the fireplace to remote locations in the same room or other rooms in your home by using the Heat Wave™ power duct system.

Seattle See-Through 50 shown with black reflective crystals, crushed black coal glass and black steel interior panels

power vent systems

Regency's power vent systems have longer vertical and horizontal vents. Due to this functionality, designers and architects are able to build with freedom and flexibility to find the perfect space for your fireplace.

INLINE POWER VENT SYSTEM

- Allows for both vertical and horizontal termination (Horizontal terminations can use Regency's AstroCap)
- Vent runs up to 72 ft. (rigid pipe approved for up to 72 ft. & flex pipe approved for up to 40 ft.)
- Use up to six 90° elbows or twelve 45° elbows
- Use flex vent or rigid pipe
- Access panel required for servicing inline power vent

Inline Power Vent system shown
vertical vent run

Inline Power Vent system shown
horizontal vent run

FLUSH HORIZONTAL TERMINATION POWER VENT

- Horizontal power vent wall termination cap (End of line power vent only) can be installed flush or adjusted to the depth of your wall
- No access panel required for servicing, unless the cap is not accessible from the exterior of home
- Can be painted to match the exterior of outside wall
- Vent runs up to 72 ft. (rigid pipe approved for up to 72 ft. & flex pipe approved for up to 40 ft.)
- Allows for 6 ft. (72") of negative vent run below first elbow
- Use up to six 90° elbows or twelve 45° elbows
- Use flex vent or rigid pipe

regency-fire.com

WHY CHOOSE REGENCY?

For the past 40+ years Regency has been focused on creating innovative, high-quality and reliable products that reduce heating costs and add true value to the home. We design all our products to be durable and last a lifetime so that our customers can enjoy them for years to come.

HIGH-QUALITY

Producing a high-quality product has been at the very heart of what we do from when that very first stove rolled off the production line over 40 years ago to today. We are ever-focused on producing quality products for our customers that will last for years to come.

BEST WARRANTY

A fireplace should be reliable and should work right the first time it is used, and the 1,000th. A core part of our business is making sure that we are building long-lasting, durable, high-quality products; we back-up that commitment with the industry's best warranty on all our products.

COST-EFFICIENT

Never before have home heating costs been higher. Turn your furnace way down and zone heat with our beautiful, reliable and convenient Regency products. Not only can you cut your fuel bills in half, but you'll be able to enjoy the timeless comfort of a Regency fire.

Why Regency? Because it's **more** than a fireplace!

REGENCY GRANDVIEW G600 • G800

Medium and Large Gas Fireplaces with Contemporary Options

G600C shown with driftwood log set and black inner steel panels.

ONE FIREPLACE, UNLIMITED POSSIBILITIES

Designed using customer feedback, the Regency Grandview gas fireplace is our most flexible fireplace yet! The Grandview series offers stunning flame pictures and full customization, allowing homeowners to pick and choose the accessories and elements that best suit their style – with over 960 combinations, there is a Grandview for every home and every style.

Choose from traditional installation or utilize Regency's patented Cool Wall System to provide ultimate design flexibility. The Regency Cool Wall system allows the use of virtually any material to the edge of the fireplace or the placement of TVs or artwork directly above the fire; without any limitations.

COOL WALL SYSTEM ADVANTAGES

- Place a TV above the fireplace without it getting damaged
- Hang artwork without fear of warping
- Paint will not discolor, drywall will not crack
- No internal fans required
- Use any finish right to the edge of the fire, even wood or wallpaper

DIMENSIONS	G600	G800
Viewing Area	600 sq. in.	800 sq. in.
Width	31-7/8"	35-7/8"
Height	29-7/8"	35-7/8"
Depth	14-5/8"	16-7/8"

G800C shown with coal black crushed glass and painted black steel panels installed with a clean front finish using the cool wall system and chase vent.

Iceberg crushed glass, black steel panels and black faceplate

Ginger crushed glass and antique copper faceplate

Iceberg crushed glass, volcanic stones and black steel panels

SPREAD THE WARMTH

ZONE HEATING WITH REGENCY

Add a fireplace to your most frequently used living space and save energy by only heating rooms you use.

HEAT ADJACENT ROOMS WITH THE HEAT WAVE™ - POWER DUCT SYSTEM

Cut down on your heating costs using a Heat Wave kit. The Heat Wave system attaches onto most Regency gas fireplaces, allowing you to direct heat into rooms up to 20 feet away. This kit comes complete with vent, variable speed blower (for HeatWave system only), and vent register.

OPTIONS

REGENCY REMOTES AND THERMOSTATS

Create optimal comfort with ease and convenience at the touch of a button with the Regency comfort control system. Our **user friendly programmable controls** can be set, adjusted and programmed for your fireplace to come on at the temperature you want, when you want it. Regency control systems are available with a variety of features to suit your home heating needs.

- ✓ Standard

* Smart thermostat - Rather than a thermostat that simply turns your fireplace on and off, the Smart Control function allows you to set your desired room temperature. As the room reaches your personal setting, the flame intensity and heat gradually decrease – keeping the ambience of your Regency fire on with less heat output and the option to turn it off at any time.

** For models that have a blower.

*** For models that have an optional accent light.

MAXIMIZING COMFORT AND EFFICIENCY

Regency fireplaces deliver controllable heating solutions by combining the latest in radiant/convection heat technology and innovative features:

- Adjustable flame/heat control
- Heat radiating ceramic glass for maximum radiant heat
- SureFire electronic ignition switch with battery backup features fuel saving intermittent pilot ignition that conserves energy when not in use
- **Power's Out, Heat's On.** All Regency gas fireplaces operate safely without electricity. Never worry about being cold during a power outage again and stay warm all winter long with Regency.

DESIGN VERSATILITY

AstroCap (front)

AstroCap (back)

You can enjoy the convenience of a gas fireplace anywhere in your home with a Regency direct vent fireplace. Regency direct vent fireplaces maintain indoor air quality by drawing fresh combustion air from outside through our specialized venting system into a sealed firebox and sending the used air back outdoors. Direct vent technology allows you to add a fireplace to rooms with no existing chimney. Simply vent your fireplace through an outside wall and finish it with the patented **Regency astroCap flex venting system** (11" x 11" 7-1/2" deep including mounting flange).

TRADITIONAL GAS FIREPLACES

regency-fire.com

WHY CHOOSE REGENCY?

For the past 40+ years Regency has been focused on creating innovative, high-quality, and reliable products that reduce heating costs and add true value to your home. We design all our products to be durable and last a lifetime so that our customers can enjoy them for years to come.

HIGH-QUALITY

Producing a high-quality product has been at the very heart of what we do from when that very first stove rolled off the production line over 40 years ago to today. We are ever-focused on producing quality products for our customers that will last for years to come.

BEST WARRANTY

A fireplace should be reliable and should work right the first time it is used, and the 1,000th. A core part of our business is making sure that we are building long-lasting, durable, high-quality products; we back-up that commitment with the industry's best warranty on all our products.

COST-EFFICIENT

Never before have home heating costs been higher. Turn your furnace way down and zone heat with our beautiful, reliable and convenient Regency products. Not only can you cut your fuel bills in half, but you'll be able to enjoy the timeless comfort of a Regency fire.

Why Regency? Because it's *more* than a fireplace!

THE GRANDVIEW SERIES

G800P shown with birch log set, herringbone brick panels in black and clean finish install.

One Fireplace, Unlimited Possibilities

Ignite your imagination with the Regency Grandview™ traditional gas fireplace, offering over 960 design combinations and versatile installation options. Choose a classic setup or opt for our Regency Patented Cool Wall System, which allows safe mounting of art or a TV above the unit while reducing costs and enabling the use of nearly any material right to the edge. With endless styling possibilities and innovative features, the Grandview™ series brings your vision to life with unmatched flexibility.

COOL WALL SYSTEM ADVANTAGES

- Place a TV above the fireplace without it getting damaged
- Hang artwork without fear of warping
- Paint will not discolor, drywall will not crack
- No internal fans required
- Use any finish right to the edge of the fire, even wood or wallpaper

FIREPLACE OPTIONS

MAXIMIZING COMFORT AND EFFICIENCY

Regency fireplaces deliver controllable heating solutions by combining the latest in radiant/convection heat technology and innovative features:

- Adjustable flame/heat control.
- Heat radiating ceramic glass.
- **Intelligent Ignition System** features fuel-saving intermittent pilot ignition (IPI), 7-day continuous pilot mode (CPI), and 5 second **Flame Failure Response Time (FFRT)** for more reliable startups - even in cold weather (Electronic Ignition Models Only).
- Power's Out, Heat's On. All Regency gas fireplaces operate without electricity. Enjoy peace of mind all winter long.
- Variable speed blower to maximize efficiency. Our **quiet blowers** increase the efficiency of your fireplace by pushing the heat produced by your fireplace forward and distributing it throughout the room.
- **Proflame GTMF Remote Controls**. A standard feature included with most traditional gas fireplaces, this user friendly programmable remote can be set to start your Regency fire at your desired room temperature and be easily adjusted with the touch of a button.

COOL WALL SYSTEM

Our patented Cool Wall System utilizes natural convection and innovative design to maintain cool wall surface temperatures without any loss in efficiency or need for fans or additional ducting. The fireplace draws in cooler air from floor level, heating and then distributing the air both in front of the fireplace and at ceiling level, enabling total flexibility in finishing materials and placement of televisions and artwork.

NO CHIMNEY? NO PROBLEM!

DIRECT VENT TECHNOLOGY allows you to add a fireplace to rooms with no existing chimney. Simply vent your fireplace through an outside wall and finish it with the patented **Regency AstroCap Flex Venting System**. Direct Vent fireplaces are airtight systems that use outside air for combustion, helping maintain indoor air quality and keeping all the warmth generated from your fireplace inside your home. Even when the fireplace is turned off, the sealed system will prevent cold air from entering the home and warm air from leaving. Direct Vent fireplaces allow versatility in **installation and increase fireplace efficiency**.

SPREAD THE WARMTH

ZONE HEATING WITH REGENCY: Add a fireplace to your most frequently used living space and save energy by only heating rooms you use.

HEAT ADJACENT ROOMS WITH THE HEAT WAVE™ - POWER DUCT SYSTEM: Cut down on your heating costs using a Heat Wave kit. The Heat Wave system attaches onto most Regency gas fireplaces allowing you to direct heat into rooms up to 20 feet away. This kit comes complete with vent, variable speed blower (for Heat Wave system only) and vent register.

FEATURE	DESCRIPTION	PROFLAME GTMF OR WALL MOUNT	PROGRAMMABLE THERMOSTAT
On/Off		✓	✓
Child lock		✓	•
LCD Backlit Screen		✓	✓
Clock		•	✓
Temperature display	°F / °C	✓	✓
Thermostat	one setting (all days)	✓	✓
	5-day weekday & 2-day weekend	•	✓
	Smart thermostat*	✓	•
Flame adjustment	(6 levels)	✓	•
Fan control**	(6 levels)	✓	•
Accent light (On/Off)***		✓	•

* Smart Thermostat - Rather than a thermostat that simply turns your fireplace on and off, the Smart Control function allows you to set your desired room temperature. As the room reaches your personal setting the flame intensity and heat will gradually decrease – keeping the ambience of your Regency fire on with less heat output with the option to turn off at any time.

** For models that have a blower. *** For models that have an optional accent light.

WHY CHOOSE REGENCY?

At Regency, our past 40 years have been focused on providing a high-level of service while building high-quality and reliable products that our customers can enjoy for years to come.

HIGH-QUALITY

Producing a high-quality product has been at the very heart of what we do ever-since that very first stove rolled off the production line over 40 years ago. We are ever-focused on producing quality products for our customers that will last for years to come.

BEST WARRANTY

A fireplace should be reliable and should work right the first time it is used, and the 1,000th. A core part of our business is making sure that we are building long-lasting, durable, high-quality products; we back-up that commitment with the industry's best warranties on our products.

COST-EFFICIENT

Never before have home heating costs been higher. Turn your furnace way down and zone heat with our beautiful, reliable and convenient Regency products. Not only can you cut your fuel bills in half, but you'll be able to enjoy the timeless comfort of a Regency fire.

Why Regency? Because it's **more** than a fireplace!

EXPERIENCE THE
Gi29 (VIDEO):

GAS INSERTS **REDEFINED**

Experience The Atmosphere Collection

Re-defining what's possible with a gas insert; the Atmosphere Collection was designed from the ground up to deliver more.

Sized and designed to fit into more spaces while still maintaining an industry-leading viewing area and provide unmatched views of our new revolutionary infusion burner technology.

Pick your look with mix & match accessories totaling almost 450 different combinations of logs, faceplates, surrounds, and interior panels, so you get the look that best suits your unique style and your unique home.

Enjoy more standard features with built-in fan to help improve room heating capacity and ember-bed lighting standard on most models.

More technology, more options, more realism, and more value. With Regency's Atmosphere collection you get more!

INFUSION BURNER

Experience The Most Realistic Fire

Inspired by nature and fueled by innovation, Regency's new patent-pending infusion burner technology delivers an unparalleled realistic flame and log set.

By cleverly infusing the burner into the logs, our team of engineers have created an unmatched flame picture that wraps naturally around the logs and dances effortlessly in the firebox - giving you the appearance and beauty of a real wood fire, with all the convenience of gas.

Experience the new Infusion burner throughout our Atmosphere lineup and enjoy flames so realistic your guests will have a hard time telling whether it's wood or gas!

STANDARD FEATURES

- NEW: innovative, patented infusion burner
- Invisimesh safety screen for a clear view of the fire
- Proflame II GTMF remote control system
- Variable speed blower for max heat distribution
- 30° angled flue for versatile installation
- Direct vent to increase efficiency & warmth retention
- Limited lifetime warranty

OPTIONS

- Multiple faceplate styles
- Multiple log set choices: oak, birch or driftwood
- Interior panels in Rustic Brown, Volcanic Black, and Herringbone
- Premium and traditional surrounds in various colors
- Wifi Kit for app control
- Flush installation options
- Mantel deflector for reduced clearances
- Oversized and custom backing plates
- Hearth trim kit for raised hearth installations
- Regency flex liners
- Propane conversion kit
- Proflame II Gas insert hardwire kit

Note: Fireplace opening sizes may differ depending on option chosen and type of masonry fireplace.

REGENCY ENERGY™ E33

Large Gas Fireplace Insert

E33 shown with Vignette faceplate in Black, Door inlay in Black and brick panels.

AN ATTRACTIVE HEAT SOURCE

The E33 large gas fireplace insert is a high-efficiency heat source that is designed to seal old drafty fireplaces and provide controllable gas heat. With a standard variable-speed blower, the E33 helps circulate air within the room, distributing it further than radiant heat alone. This unit is a sealed system that uses outside air for combustion – making it perfect for airtight homes.

SPECIFICATIONS	NATURAL GAS	PROPANE
Input (BTU)	38,000	35,500
Turn down to (BTU)	20,000	19,000

OTHER OPTIONS

DIRECT VENT TECHNOLOGY

A Regency gas insert is a specially engineered, sealed fireplace that slips into your existing masonry or pre-fab fireplace to create a high-efficiency heating system with a beautiful fire. The airtight firebox uses outside air for combustion, helping maintain indoor air quality and keeping all the warmth generated from your fireplace in your home.

Even when the fireplace is turned off, the sealed system will prevent cold air from entering the home and warm air from leaving.

PROFLAME II GAS INSERT HARDWIRE KIT

This kit allows you to have a hard-wire electrical connection within your existing fireplace for a safe and cord free installation.

INTELLIGENT IGNITION SYSTEM*

Regency gas fireplace inserts feature an Intelligent Ignition System that lights the pilot only when needed, reducing gas usage and costs. In colder climates, it can be set to Continuous Pilot Mode (CPI), keeping the pilot lit for up to seven days. With a new 5-second Flame Failure Response Time (FFRT) sensor, it ensures reliable ignition even in cold conditions, enhancing performance and efficiency.

*Not available on L234, U31, E33, Gi29LU.

SPREAD THE WARMTH

Blower

Note: This unit is only available in select markets.

REMARKABLE EFFICIENCY

The precision-engineered heat exchanger systems dramatically increase the overall heating efficiency of these Regency gas inserts. The cold air from your room passes through the pre-heated heat exchanger system, which is then re-distributed back into your room as comforting warm air (also known as convection heat).

POWERFUL RADIANT HEAT

Not only do these gas inserts include the latest innovations in fireplace technology and efficiencies, they also generate a large amount of radiant heat from the flames of the fire package. The heat from the fire radiates through the ceramic glass and transfers that warmth to you, providing the perfect combination of radiant and convective heat distribution.

VARIABLE SPEED BLOWER TO MAXIMIZE EFFICIENCY

Regency blowers are a standard feature with all gas inserts. A blower will let you enjoy the warmth of your fireplace from any corner of your living space. Our quiet blowers increase the efficiency of your fireplace by pushing the heat produced by your fireplace forward, distributing it further, and evenly into your room.

ATMOSPHERE COLLECTION – ACCESSORIES

Mix & match accessories along with almost 450 different combinations create the look you desire. The modular accessory system, featured in our most flexible gas inserts ever, enables you to tailor your fireplace to match your home and décor perfectly.

OTHER OPTIONS

MAXIMIZING COMFORT AND EFFICIENCY

Regency Fireplace Inserts deliver controllable heat solutions that combine the latest in radiant and convection heat technology with innovative features:

- Adjustable flame/heat control with Proflame remote controls (not available for U31)
- Heat radiating ceramic glass for maximum radiant heat
- Safety screen
- Variable speed blower to distribute heat into the farthest corners of your room
- Intelligent Ignition System* features fuel-saving intermittent pilot ignition (IPI), 7-day continuous pilot mode (CPI), and 5-second Flame Failure Response Time (FFRT) for more reliable startups, even in cold weather.
- Power's Out, Heat's On. Never worry about being cold during a power outage again! All Regency gas fireplaces operate without electricity. Enjoy peace of mind all winter long.

*Not available for L234, U31, E33, Gi29LU.

REMOTE CONTROL - INCLUDED

Proflame I GTMF Remote Control

*May be black on select models.

Proflame II GTMF Remote Control

Create optimal comfort with ease and convenience at the touch of a button with a Regency remote control. Our **user-friendly programmable controls** can be set, adjusted, and programmed for your fireplace to turn on at the temperature you want, when you want it.

FEATURE	DESCRIPTION	PROFLAME REMOTES		
		GT	GTM	GTMF
On/off		✓	✓	✓
Child lock		✓	✓	✓
LCD backlit screen		✓	✓	✓

Smart thermostat**		✓	✓	✓
Flame adjustment	(6 levels)	•	✓	✓
Fan control	(6 levels)	•	•	✓

- Not available
- ✓ Standard

**Smart Thermostat - Rather than a thermostat that simply turns your fireplace on and off, the smart control function allows you to set your desired room temperature. As the room reaches your personal setting, the flame intensity and heat will gradually decrease - keeping the ambiance of your Regency fire on with less heat output, and the option to turn it off at any time.

SAFETY SCREEN

Regency has integrated a custom designed safety screen into each faceplate design that meets or exceeds current North American safety legislation.

APP CONTROL*

The optional Wifi enabled module provides the ultimate fireplace control with the ProFlame Connect Plus App.

*Available on select units.

GAS STOVES

regency-fire.com

REGENCY CONTURA RC500E

Medium Gas Stove

RC500E shown in black cast with volcanic stones and rear venting (unit shown without mandatory safety screen).

3-SIDED GAS STOVE

The Regency Contura RC500E gas stove boasts a sleek and fresh design that compliments any contemporary space. The fire is presented in a curved 3-sided panoramic view where clean lines and monochrome colors serve to emphasize the tall and radiant flames. Available in black or white, you can customize this modern gas stove with a bed of crushed glass, volcanic stones or a traditional log.

SPECIFICATIONS	NATURAL GAS	PROPANE
Maximum BTU	23,000	22,000
Turn down to (BTU)	16,000	18,000
Efficiency (steady state)	67.13%	66.85%
EnerGuide rating (Canada only)	60.38%	61.42%

RC500E shown in white cast with glass door & top with traditional logs and top venting (unit shown without mandatory safety screen).

STANDARD FEATURES

- View the stunning flame from three sides
- Interior lights for added ambiance
- Variable speed blower
- Natural gas
- Safety screen
- Electronic ignition with remote control
- Modulating flame adjustment
- Battery back up system keeps the heat on in the event of a power outage
- Direct vent
- Reversible flue for top or rear venting

OPTIONS

- Available in black cast or white with glass door & top
- Your choice of crystals, volcanic stones or traditional logs
- Propane conversion kit
- AstroCap® venting system
- Vertical or horizontal direct vent terminations

RC500E shown with safety screen

REGENCY ULTIMATE™ U38 • U39 • U39E

Medium Gas Stoves

U39E shown with wrap around brushed nickel door, brushed nickel louvers and traditional log set (unit shown without mandatory safety screen).

MODERN FIRE

The Ultimate Gas Stoves Series is framed with clean, modern lines that provide exceptional views of a stunning fire accentuated by the wraparound design to enhance your enjoyment of the flames. With controllable heat settings, your Ultimate fire can be set to the maximum to provide high efficiency or turned down to maintain ambiance with less heat. Warm-up your kitchen, bedroom, or den with these efficient and versatile gas stoves.

REGENCY CLASSIC™ C34 • C34E

Small Gas Stove

C34 shown with black legs, black door and safety screen.

CLASSIC FIRE

The Regency Classic gas stoves seamlessly blends the classic aesthetics of wood stoves with the modern convenience of gas. These stoves do not require an existing chimney and can be installed with a direct vent to use outside air for combustion, allowing your home to maintain an everlasting cozy ambiance. This Classic series, like all Regency gas stoves, operates safely without electricity - keeping you warm with radiant heat.

COMFORT CONTROLS

Fire Genie Remote

Proflame remote

Proflame II remote

Turn your fire on and off with our comfort remote controls. They can be used as a thermostat, allowing you to set and automatically maintain the desired temperature no matter where in the room you are sitting.

Programmable Wall Thermostat

A Regency wall thermostat is a hands-free solution that helps you maintain a constant temperature in your home. Choose the programmable wall thermostat and set different temperatures throughout the day to match your lifestyle.

MAXIMIZING COMFORT AND EFFICIENCY

Direct vent technology allows you to install a Regency stove almost anywhere in your home - no chimney is needed. From the top of the unit, simply vent your stove through an exterior wall. Direct vent units have a sealed combustion chamber; outside air is used for combustion resulting in a warmer home and improved indoor air quality.

ENJOY YOUR REGENCY — FOR LIFE

You'll be happy with your Regency for years to come; our Limited Lifetime Warranty guarantees it. Not only have we invested in quality workmanship, the finest materials, and durable, heavy-duty construction, but we have carefully selected a dealer network that is committed to your satisfaction. We know that you will be as proud of your Regency as we are.

WHY CHOOSE REGENCY?

At Regency, our past 40 years have been focused on providing a high-level of service while building high-quality and reliable products that our customers can enjoy for years to come.

HIGH-QUALITY

Producing a high-quality product has been at the very heart of what we do from when that very first stove rolled off the production line over 40 years ago to today. We are ever-focused on producing quality products for our customers that will last for years to come.

BEST WARRANTY

A fireplace should be reliable and should work right the first time it is used, and the 1,000th. A core part of our business is making sure that we are building long-lasting, durable, high-quality products; we back-up that commitment with the industry's best warranty on all our products.

COST-EFFICIENT

Enjoy the outdoors for longer. Controllable zone heating allows you to extend your patio season earlier in the spring and later into the fall. Enjoy your patio all night long with Regency's outdoor gas fireplaces.

Why Regency? Because it's **more** than a fireplace!

GRANDVIEW SERIES INSTALLATION

Location

For the purposes of this installation manual the term "outdoor" means installed outside of the insulated building envelope within a weatherproof enclosure or existing solid-fuel burning fireplace having a minimum required overhang. The outdoor space may be attached or free standing to the main/primary structure and may or may not include walls.

Note

The fireplace will not perform as an exterior wall. If installed against an exterior wall we recommend the appliance enclosure or chase be constructed completely outside of the insulated building envelope and weather membrane. The fireplace must be permanently situated and connected to a fixed piping system, it is not portable.

The minimum weatherproof overhang in front and at sides of the fireplace is 1/2 of the height of the overhang (as shown with 96" framing height) measured from the base of the unit.

REGENCY PLATEAU® PTO30CFT

Freestanding Firetable

PTO30CFT shown with stainless steel top, crystals and glass wind shield.

LINGER OUTDOORS LONGER...IN STYLE

Regency's versatile firetable is perfect for outdoor entertaining. At 20" tall, the sleek linear style of the Regency Plateau Coffee Table creates the perfect gathering space. Included is a dining leaf that adds functionality as an outdoor table when the fireplace is not in use. The Plateau Firetable collection is crafted from the highest quality materials and durable construction, built to withstand the outdoor elements.

SPECIFICATIONS	NATURAL GAS	PROPANE
Input (BTU)*	49,000	48,000
Turn down to (BTU) *	18,000	15,000

* Figure will vary with individual conditions and fuel quality.

PTO30CFT shown with sunset bronze top, crystals and glass wind shield.

WOOD INSERTS & FIREPLACES

regency-fire.com

WHY CHOOSE REGENCY?

For the past 40+ years Regency has been focused on creating innovative, high-quality and reliable products that reduce heating costs and add true value to the home. We design all our products to be durable and last a lifetime so that our customers can enjoy them for years to come.

HIGH-QUALITY

Producing a high-quality product has been at the very heart of what we do from when that very first stove rolled off the production line over 40 years ago to today. We are ever-focused on producing quality products for our customers that will last for years to come.

BEST WARRANTY

A fireplace should be reliable and should work right the first time it is used, and the 1,000th. A core part of our business is making sure that we are building long-lasting, durable, high-quality products; we back-up that commitment with the industry's best warranty on all our products.

COST-EFFICIENT

Never before have home heating costs been higher. Turn your furnace way down and zone heat with our beautiful, reliable and convenient Regency products. Not only can you cut your fuel bills in half, but you'll be able to enjoy the timeless comfort of a Regency fire.

Why Regency? Because it's *more* than a fireplace!

REGENCY WOOD PRODUCTS

ECO-FRIENDLY

Regency wood inserts are EPA Certified so you burn less wood, produce fewer emissions, and get longer burns while keeping your home warm all year long.

HIGHLY EFFICIENT

Using more of the wood's available energy means less loading, less chopping, less effort, and most importantly less money spent on wood! Save money with highly efficient Regency wood products.

INDUSTRY'S BEST WARRANTY

Every product is backed by our lifetime limited warranty, and our hybrid products offer a 10-year, 100% warranty on the original combustor. The best in the industry!

QUALITY, DURABLE PRODUCTS

Regency wood products are manufactured right here in North America using high-quality thick gauge steel. All Regency products are designed from the ground up to be durable and to last generations.

ECO BOOST - TRIPLE BURN TECHNOLOGY

Triple stage burn technology delivers a system of high-efficiency, clean combustion and maximum heat control, all with less wood, less loading and less effort.

HAMPTON® Hi1150

Small Non-Catalytic Wood Insert

Hi1150 shown in timberline brown.

The Hampton Hi1150 small cast iron wood insert offers a traditional look and feel of cast iron with modern efficiency. This unit delivers up to 55,000 BTU of high-efficiency heat throughout your home providing comfort and warmth to the living areas you spend time in. Decrease your heating bills and increase the value of your home with this beautiful Hampton insert.

FEATURES

- Large fire viewing area, with heat radiating ceramic glass
- Decorative cast iron grille
- Cast iron exterior provides additional radiant heating
- Wood-finished handle
- Heavy-duty cast hinges that will never bend or break
- Solid forged steel adjustable cam lock ensures a tight door seal over time
- Side-mounted air adjustment
- High-performance brick-lined firebox reflects heat
- Non-obtrusive air wash curtain keeps glass clean
- Heavy gauge steel log retainers to stop logs from rolling

OPTIONS

- Metallic black or timberline brown enamel finish
- 2-speed blower
- Power outlet conversion
- Regency stainless steel flex liner kits (5.5" DIA) in 25 ft. and 35 ft. lengths
- Wrap insulation kits
- Flue connectors

NOTE: The ember protection shown in these images may not accurately reflect the ember protection dimensions required for your area.

* Length of burn time and BTU range depend on type of wood, moisture content, climate conditions and installation. Refer to page 18 for BTU calculation method.

** Varies depending on home floor plan, house layout, heat loss of the house and quality/moisture content of wood.

REGENCY ALTERRA® Ci1150

Small Non-Catalytic Wood Insert

Ci1150 small wood insert.

This Alterra small contemporary cast iron wood insert provides a flush and clean design for your existing fireplace. This compact wood heater delivers exceptional heating capacity and the two-speed blower helps distribute the heat to the far corners of your living space.

FEATURES

- Large fire viewing area, with heat radiating ceramic glass
- Cast iron faceplate provides additional radiant heating
- Heavy-duty cast hinges that will never bend or break
- Solid forged steel adjustable cam lock ensures a tight door seal over time
- Front-mounted air adjustment
- High-performance brick-lined firebox reflects heat
- Non-obtrusive air wash curtain keeps glass clean
- Heavy gauge steel log retainers to stop logs from rolling
- Flush mount 2-speed blower

OPTIONS

- Regular or custom made backing plates
- Standard or 4-1/2" offset flue adaptor
- Regency stainless steel flex liner kits (5.5" DIA) in 25 ft. and 35 ft. lengths
- Flue connectors
- Wrap insulation kits

SPECIFICATIONS

Maximum BTU*	55,000
Typical sq. ft. heated**	600 - 1,200
EPA Efficiency	75% LHV / 71% HHV
Max log size	18"
Burn time	Up to 8 hours
Emissions	1.3 g/h
Firebox size	0.98 cu. ft.
Flue size	6"

MIN. FIREPLACE OPENING

Width (front) x Height	25" x 23"
Depth (standard flue adapter)	15-1/8"
Depth (offset flue adapter)	18-1/8"

NOTE: The ember protection shown in these images may not accurately reflect the ember protection dimensions required for your area.

* Length of burn time and BTU range depend on type of wood, moisture content, climate conditions and installation. Refer to page 18 for BTU calculation method.

** Varies depending on home floor plan, house layout, heat loss of the house and quality/moisture content of wood.

REGENCY CLASSIC™ i1150

Small Non-Catalytic Wood Insert

i1150 shown with nickel accent door & oversize backing plate.

This Regency Classic i1150 small wood insert is perfect to seal off that drafty fireplace that isn't quite big enough for a full sized heater or for that area in your home that requires a smaller heater. It also adapts to fit most prefabricated fireplaces.

FEATURES

- Large fire viewing area, with heat radiating ceramic glass
- Wood-finished handle
- Heavy-duty cast hinges that will never bend or break
- Solid forged steel adjustable cam lock ensures a tight door seal over time
- Front-mounted air adjustment
- High-performance brick-lined firebox reflects heat
- Non-obtrusive air wash curtain to keeps glass clean
- Heavy-gauge steel log retainers to stop logs from rolling
- Welded ash lip will never bend or break

OPTIONS

- Cast iron door with heat radiating ceramic glass in black or nickel accent
- Contemporary door (black only)
- Regular or oversize backing plate (black trim included)
- Variable-speed blower
- Standard or 4-1/2" offset flue adaptor
- Regency stainless steel flex liner kits (5.5" DIA) in 25 ft. and 35 ft. lengths
- Wrap insulation kits
- Flue connectors

SPECIFICATIONS

Maximum BTU*	55,000
Typical sq. ft. heated**	600 - 1,200
EPA Efficiency	77% LHV / 71% HHV
Max log size	18"
Burn time	Up to 8 hours
Emissions	1.3 g/h
Firebox size	0.98 cu. ft.
Flue size	6"

MIN. FIREPLACE OPENING

Width (front) x Height	23" x 19"
Depth (standard flue adapter)	13-3/4"
Depth (offset flue adapter)	16-1/2"

NOTE: The ember protection shown in these images may not accurately reflect the ember protection dimensions required for your area.

* Length of burn time and BTU range depend on type of wood, moisture content, climate conditions and installation. Refer to page 20 for BTU calculation method.

** Varies depending on home floor plan, house layout, heat loss of the house and quality/moisture content of wood.

REGENCY CASCADES™ i1500

Small Hybrid Wood Insert

i1500 shown with black door and regular backing plate.

The Regency Cascades i1500 small hybrid wood insert features Regency's Eco-Boost triple burn technology to allow for longer burns, fewer emissions, and greater efficiency. Perfect for sealing a drafty fireplace or adding high-efficiency warmth to a smaller space.

FEATURES

- Large fire viewing area, with heat radiating ceramic glass
- Wood-finished handle
- Heavy-duty cast hinges that will never bend or break
- Solid forged steel adjustable cam lock ensures a tight door seal over time
- Front-mounted air adjustment & catalytic bypass
- Air & bypass safe operation tool
- Digital catalytic temperature monitor helps your stove reach maximum burn times & efficiency
- High-performance brick-lined firebox reflects heat
- Non-obtrusive air wash curtain keeps glass clean
- Heavy gauge steel log retainers to stop logs from rolling
- Welded ash lip will never bend or break
- 10-year 100% coverage on the original catalyst

OPTIONS

- Cast iron door with heat radiating ceramic glass in black or nickel accent
- Regular or oversize backing plate (black trim included)
- Variable-speed blower
- Standard or 4-1/2" offset flue adaptor
- Regency stainless steel flex liner kits (5.5" DIA) in 25 ft. and 35 ft. lengths
- Wrap insulation kits

SPECIFICATIONS

Maximum BTU*	55,000
Typical sq. ft. heated**	600 - 1,200
EPA Efficiency	84% LHV / 78% HHV
Max log size	18"
Burn time	Up to 10 hours
Emissions	1.0 g/h
Firebox size	0.98 cu. ft.
Flue size	6"

MIN. FIREPLACE OPENING

Width (front) x Height	23" x 19"
Depth (standard flue adapter)	13-3/4"
Depth (offset flue adapter)	16-1/2"

NOTE: The ember protection shown in these images may not accurately reflect the ember protection dimensions required for your area.

* Length of burn time and BTU range depend on type of wood, moisture content, climate conditions and installation. Refer to page 18 for BTU calculation method.

** Varies depending on home floor plan, house layout, heat loss of the house and quality/moisture content of wood.

REGENCY CLASSIC™ i2450

Medium Non-Catalytic Wood Insert

i2450 shown with nickel accent door & regular backing plate.

The Regency Classic i2450 medium wood insert is ready to install and fits easily into your existing fireplace. Quickly and easily load wood front to back or side-to-side and experience long efficient burns. With the i2450 classic wood insert, style meets modern wood burning technology.

FEATURES

- Large fire viewing area, with heat radiating ceramic glass
- Wood-finished handle
- Heavy-duty cast hinges that will never bend or break
- Solid forged steel adjustable cam lock ensures a tight door seal over time
- Side-mounted air adjustment
- High-performance brick-lined firebox reflects heat
- Non-obtrusive air wash curtain keeps glass clean
- Black convection grilles
- Welded ash lip will never bend or break

OPTIONS

- Cast iron door with heat radiating ceramic glass in black or nickel accent
- Nickel convection grilles
- Regular or oversize backing plate (black trim included)
- 2-speed blower
- Regency stainless steel flex liner kits (5.5" DIA) in 25 ft. and 35 ft. lengths
- Wrap insulation kits
- Flue connectors

SPECIFICATIONS

Maximum BTU*	75,000
Typical sq. ft. heated**	1,000 - 2,200
EPA Efficiency	72% LHV / 67% HHV
Max log size	18"
Burn time	Up to 10 hours
Emissions	1.4 g/h
Firebox size	2.3 cu. ft.
Flue size	6"

MIN. FIREPLACE OPENING

Width (front) x Height	25" x 21-1/2"
Depth (standard flue adapter)	17"
Depth (offset flue adapter)	--

HAMPTON® Hi500

Large Hybrid Wood Insert

Hi500 shown in Timberline Brown enamel (digital catalytic monitor not shown).

The Hampton Hi500 is a large cast iron hybrid wood insert featuring Regency's Eco-Boost triple burn technology. Experience long term burns, fewer emissions, and greater efficiency. This unit combines modern technology and traditional design so you can enjoy the best of both worlds without sacrificing style or efficiency!

FEATURES

- Cast iron exterior provides additional radiant heating
- Heavy-duty cast hinges that will never bend or break
- Solid forged steel adjustable cam lock ensures a tight door seal over time
- Front-mounted air adjustment & catalytic bypass
- Digital catalytic temperature monitor helps your stove reach maximum burn times & efficiency
- High-performance brick-lined firebox reflects heat
- Non-obtrusive air wash curtain keeps glass clean
- Heavy gauge steel log retainers to stop logs from rolling
- 110° opening door for easy loading
- 10-year 100% coverage on the original catalyst

OPTIONS

- Metallic black or timberline brown enamel finish
- Flush mount 2-speed blower
- Regular or oversize faceplate
- Decorative cast iron grille
- Backing plates in two sizes, or custom made to order
- Offset flue adaptor for installation flexibility
- Regency stainless steel flex liner kits (5.5" DIA) in 25 ft. and 35 ft. lengths
- Wrap insulation kits

SPECIFICATIONS

Maximum BTU*	78,000
Typical sq. ft. heated**	up to 2,600
EPA Efficiency	83% LHV / 77% HHV
Max log size	22"
Burn time	Up to 14 hours
Emissions	1.1 g/h
Firebox size	2.6 cu. ft.

WOOD TECHNOLOGY

PRO SERIES COMBUSTOR

With Eco-Boost technology you get more out of your wood. Offering some of the highest efficiencies available anywhere, the Eco-Boost system uses more of the available energy in the wood, resulting in less loading, less chopping, and less hauling. The triple-stage burn significantly reduces emissions below EPA 2020 standards.

* Length of burn time and BTU range depend on type of wood, moisture content, climate conditions and installation.

** Varies depending on home floor plan, house layout, heat loss of the house and quality/moisture content of wood.

BTU CALCULATION METHOD: Max BTUs are calculated by taking an average fillable volume of 95% of the stove's capacity, multiplied by 19.5 pounds per square foot and an average of 9100 BTUs per pound of wood. Factoring in the listed efficiency, 15% moisture content and dividing by the proven burn time at the high heat setting.

REGENCY WOOD FIREPLACE

RELAX WITH A REGENCY DECORATIVE FIREPLACE

There's nothing quite like sitting by a cozy fire; the dancing flame, crackle of the wood, radiant warmth, and distinctive smell tugs at our heartstrings. This love for fire is deeply ingrained and borne out of evolution; it is no doubt why fireplaces are still sought after. Sitting in front of a fire, we feel calmer, safer, and more sociable. Studies have proven that wood fires lower blood pressure and generate a sense of community with those around us.

Regency decorative wood fireplaces are perfect for those looking to add a stunning fireplace, experience the comfort and ambiance of a real wood fire, but do not require significant heat output for their entire home.

REGENCY ALTERRA® CF780

Large Wood Fireplace

CF780 wood fireplace shown with traditional brick panels.

Add natural elegance to any room with Regency's largest portrait style wood fireplace. Designed to showcase the dynamic ambiance of a wood burning fire, the Regency Alterra CF780 is a magnificent and captivating focal point.

FEATURES

- Easy-to-use: no air adjustment needed - load it and leave it!
- Over 700 sq. in. of fire viewing area
- Clean edge finish puts the focus directly on the fire
- Guillotine style door slides into the chase
- Integrated safety screen can be pulled down when required, or discreetly hidden out of sight
- Stylish removable wooden door tool with strap
- Heavy gauge steel log retainers to stop logs from rolling
- Designed to fit perfectly on any wall, including corners
- Door designed for easy cleaning and complete serviceability
- Top vent with standard 8-inch pipe

OPTIONS

- Customize the look by choosing from contemporary or traditional brick panels
- Outside air and flue damper can be closed when not in use, preventing cold air from coming into your home
- Approved to use with gas logs
- Various venting kits

SPECIFICATIONS

EPA 2020 CERTIFIED

Regency wood inserts are tested and certified to the strictest clean air standards as set by the United States Environmental Protection Agency (EPA). Regency's wood inserts are fully EPA 2020 certified, meaning they release very little particulate matter into the atmosphere, less than 2.5 grams per hour, compared to the 50-60 grams per hour produced by traditional open hearth fireplaces.

Regency engineers have meticulously designed the firebox to generate efficient airflow around the wood, allowing it to burn more completely, resulting in minimal and very fine ash. When comparing models, check the white EPA labels – a lower g/h rating means a cleaner, more efficient wood stove.

As trees grow, they absorb carbon dioxide from the atmosphere. When trees die and are left to decompose or burn in forest fires, the carbon stored within the trees is released back into the atmosphere, once again as carbon dioxide. Burning firewood produces the same amount of carbon dioxide as it has absorbed – this makes it carbon neutral. Wood is also a renewable, natural energy source.

Well-managed forests are a renewable and sustainable energy source that also helps reduce our reliance on oil and gas greenhouse gas emissions.

FIREPLACE SELECTION WORKSHEET

We want you to enjoy your beautiful Regency fireplace for years to come. To help you figure out which product is just right for your home, fill in the following worksheet. Once complete, visit your nearest Regency dealer. Your professional Regency dealer will assess your needs - including local building codes - and install your Regency!

1. BASIC PRODUCT FUNCTION QUESTIONS

- a. I would like my unit to provide me with: ☐ Supplemental heating ☐ Priority heating
- b. The room/rooms I would like to heat are: _____ sq. ft.

2. FIREPLACE PRODUCT TYPE AND MEASUREMENTS

- a. I am: ☐ Installing a new fireplace ☐ Installing into an existing fireplace
- b. Fill in the following measurements:
- Ceiling Height: _____
- Location in the room: _____
- c. What is the:
- Flooring material: _____
- Wall material: _____
- Ceiling material: _____
- d. Fireplace opening dimensions:
- Width (front): _____
- Width (back): _____
- Height: _____
- Depth: _____

WOOD STOVES

regency-fire.com

WHY CHOOSE REGENCY?

For the past 40+ years Regency has been focused on creating innovative, high-quality and reliable products that reduce heating costs and add true value to the home. We design all our products to be durable and last a lifetime so that our customers can enjoy them for years to come.

HIGH-QUALITY

Producing a high-quality product has been at the very heart of what we do from when that very first stove rolled off the production line over 40 years ago to today. We are ever-focused on producing quality products for our customers that will last for years to come.

BEST WARRANTY

A fireplace should be reliable and should work right the first time it is used, and the 1,000th. A core part of our business is making sure that we are building long-lasting, durable, high-quality products; we back-up that commitment with the industry's best warranty on all our products.

COST-EFFICIENT

Never before have home heating costs been higher. Turn your furnace way down and zone heat with our beautiful, reliable and convenient Regency products. Not only can you cut your fuel bills in half, but you'll be able to enjoy the timeless comfort of a Regency fire.

Why Regency? Because it's *more* than a fireplace!

REGENCY WOOD PRODUCTS

ECO-FRIENDLY

Regency wood inserts are EPA Certified so you burn less wood, produce fewer emissions, and get longer burns while keeping your home warm all year long.

HIGHLY EFFICIENT

Using more of the wood's available energy means less loading, less chopping, less effort, and most importantly less money spent on wood! Save money with highly efficient Regency wood products.

INDUSTRY'S BEST WARRANTY

Every product is backed by our lifetime limited warranty, and our hybrid products offer a 10-year, 100% warranty on the original combustor. The best in the industry!

QUALITY, DURABLE PRODUCTS

Regency wood products are manufactured right here in North America using high-quality thick gauge steel. All Regency products are designed from the ground up to be durable and to last generations.

ECO BOOST - TRIPLE BURN TECHNOLOGY

Triple stage burn technology delivers a system of high-efficiency, clean combustion and maximum heat control, all with less wood, less loading and less effort.

REGENCY CLASSIC™ F1150

Small Non-Catalytic Wood Stove

F1150 shown with wood storage pedestal

The Regency Classic small wood stove is perfect for smaller spaces, or for those needing to supplement their current heating system. Its compact footprint does not disappoint in heating capacity; burning efficiently from one load of wood.

FEATURES

- Large fire viewing area, with heat radiating ceramic glass
- Wood-finished handle
- Heavy-duty cast hinges that will never bend or break
- Solid forged steel adjustable cam lock ensures a tight door seal over time
- Front-mounted air adjustment
- Air operating safety tool
- High-performance brick-lined firebox reflects heat
- Non-obtrusive air wash curtain keeps glass clean
- Heavy gauge steel log retainers to stop logs from rolling
- Welded ash lip will never bend or break
- Rear heat deflector allowing for closer clearances
- Mobile home and alcove approved

OPTIONS

- Cast iron door with heat radiating ceramic glass in black or nickel accent
- Contemporary Door (Black only)
- Pedestal base
- Wood storage pedestal
- Bottom heat shield with cast iron legs in black or brushed nickel
- Ash drawer
- Variable-speed blower
- Convector airmate
- Outside air kit
- Mobile home kit
- Wood venting

SPECIFICATIONS

Maximum BTU*	55,000
Typical sq. ft. heated**	600 - 1,200
EPA Efficiency	77% LHV / 71% HHV
Max log size	18"
Burn time	Up to 8 hours
Emissions	1.3 g/h
Firebox size	0.98 cu. ft.
Flue size	6"

* Length of burn time and BTU range depend on type of wood, moisture content, climate conditions and installation. Refer to page 15 for BTU calculation method.

** Varies depending on home floor plan, house layout, heat loss of the house and quality/moisture content of wood.

REGENCY CLASSIC™ F2450

Medium Non-Catalytic Wood Stove

F2450 shown with black classic door, bottom heat shield, black legs and rear heat deflector

This Regency Classic medium wood stove provides the perfect amount of heat for most spaces. Load wood in this stove front to back or side to side for the optimum convenience.

FEATURES

- Large fire viewing area, with heat radiating ceramic glass
- Wood-finished handle
- Heavy-duty cast hinges that will never bend or break
- Solid forged steel adjustable cam lock ensures a tight door seal over time
- Front-mounted air adjustment
- Air operating safety tool
- High-performance brick-lined firebox reflects heat
- Non-obtrusive air wash curtain keeps glass clean
- Welded ash lip will never bend or break
- Rear heat deflector allowing for closer clearances
- Mobile home and alcove approved

OPTIONS

- Cast iron door with heat radiating ceramic glass in black or nickel accent
- Pedestal base
- Wood storage pedestal
- Bottom heat shield with cast iron legs in black or brushed nickel
- Ash drawer
- 2-speed blower
- Convector airmate
- Outside air kit
- Mobile home kit
- Wood venting

SPECIFICATIONS

Maximum BTU*	75,000
Typical sq. ft. heated**	1,000 - 2,200
EPA Efficiency	72% LHV / 67% HHV
Max log size	18"
Burn time	Up to 10 hours
Emissions	1.4 g/h
Firebox size	2.3 cu. ft.
Flue size	6"

* Length of burn time and BTU range depend on type of wood, moisture content, climate conditions and installation. Refer to page 15 for BTU calculation method.

** Varies depending on home floor plan, house layout, heat loss of the house and quality/moisture content of wood.

REGENCY CASCADES™ F1500

Small Hybrid Wood Stove

F1500 shown with nickel accent door, bottom heat shield, black legs and rear heat deflector.

The Regency Cascades F1500 small wood stove featuring Eco-Boost triple burn technology is a highly-efficient heater in a compact body that delivers exceptional heating capacity, long burn times, and low emissions.

FEATURES

- EPA 2020 certified
- Large fire viewing area, with heat radiating ceramic glass
- Wood-finished handle
- Heavy-duty cast hinges that will never bend or break
- Solid forged steel adjustable cam lock ensures a tight door seal over time
- Front-mounted air adjustment
- Air operating safety tool
- High-performance brick-lined firebox reflects heat
- Non-obtrusive air wash curtain keeps glass clean
- Heavy gauge steel log retainers to stop logs from rolling
- Welded ash lip will never bend or break
- Rear heat deflector allowing for closer clearances
- Mobile home and alcove approved

OPTIONS

- Cast iron door with heat radiating ceramic glass in black or nickel accent
- Contemporary door (Black only)
- Pedestal base
- Bottom heat shield with cast iron legs in black or brushed nickel
- Ash drawer
- Variable-speed blower
- Convector airmate
- Outside air kit
- Mobile home kit
- Wood venting

SPECIFICATIONS

Maximum BTU*	55,000
Typical sq. ft. heated**	600 - 1,200
EPA Efficiency	84% LHV / 78% HHV
Max log size	18"
Burn time	Up to 10 hours
Emissions	1.0 g/h
Firebox size	0.98 cu. ft.
Flue size	6"

* Length of burn time and BTU range depend on type of wood, moisture content, climate conditions and installation. Refer to page 15 for BTU calculation method.

** Varies depending on home floor plan, house layout, heat loss of the house and quality/moisture content of wood.

REGENCY CASCADES™ F2500

Medium Hybrid Wood Stove

F2500 shown with black door, pedestal and rear heat deflector.

The Regency Cascades F2500 delivers the same great looks as the F2450 with the addition of triple burn hybrid technology; delivering longer burn times, increased efficiency, and reducing emissions to an astonishing 1.4 gram/hour.

FEATURES

- Large fire viewing area, with heat radiating ceramic glass
- Wood-finished handle
- Heavy-duty cast hinges that will never bend or break
- Solid forged steel adjustable cam lock ensures a tight door seal over time
- Front-mounted air adjustment & catalytic bypass
- Air & bypass safe operation tool
- Easy-to-read catalytic thermometer helps your stove reach maximum burn times & efficiency
- High-performance brick-lined firebox reflects heat
- Non-obtrusive air wash curtain keeps glass clean
- Welded ash lip will never bend or break
- Rear heat deflector allowing for closer clearances
- Mobile home (*Approved in USA only*) and alcove approved
- 10-year, 100% coverage on the original catalyst

OPTIONS

- Cast iron door in black or nickel accent
- Pedestal base
- Wood storage pedestal
- Bottom heat shield with cast iron legs in black or brushed nickel
- Ash drawer
- 2-speed blower
- Convector airmate
- Outside air kit
- Wood venting

SPECIFICATIONS

Maximum BTU*	83,000
Typical sq. ft. heated**	1,000 - 2,200
EPA Efficiency	85% LHV / 78% HHV
Max log size	18"
Burn time	Up to 12 hours
Emissions	1.4 g/h
Firebox size	2.3 cu. ft.
Flue size	6"

* Length of burn time and BTU range depend on type of wood, moisture content, climate conditions and installation. Refer to page 15 for BTU calculation method.

** Varies depending on home floor plan, house layout, heat loss of the house and quality/moisture content of wood.

REGENCY PRO-SERIES™ F3500

Large Hybrid Wood Stove

F3500 shown with airmate.

Enjoy a full, roaring fire with strong heat or adjust the flame to enjoy lower heat and gorgeous glowing embers. The choice is yours!

FEATURES

- Large fire viewing area, with heat radiating ceramic glass
- Heavy-duty cast hinges that will never bend or break
- Solid forged steel adjustable cam lock ensures a tight door seal over time
- Front-mounted air adjustment & side mounted catalytic bypass
- Easy-to-read catalytic thermometer helps your stove reach maximum burn times & efficiency
- High-performance brick-lined firebox reflects heat
- Non-obtrusive air wash curtain keeps glass clean
- Welded ash lip will never bend or break
- Rear heat deflector allowing for closer clearances
- Mobile home and alcove approved
- 170° opening door for easy loading
- Heavy-duty 3/16 in. steel firebox
- 10-year, 100% coverage on original catalyst

OPTIONS

- Ash drawer with cover
- 2-speed blower
- Convector airmate
- Outside air kit
- Mobile home kit
- Wood venting

SPECIFICATIONS

Maximum BTU*	88,000
Typical sq. ft. heated**	1,500 - 2,500
EPA Efficiency	82% LHV / 76% HHV
Max log size	20"
Burn time	Up to 24 hours
Emissions	1.1 g/h
Firebox size	3.0 cu. ft.
Flue size	6"

* Length of burn time and BTU range depend on type of wood, moisture content, climate conditions and installation. Refer to page 15 for BTU calculation method.

** Varies depending on home floor plan, house layout, heat loss of the house and quality/moisture content of wood.

REGENCY PRO-SERIES™ F5200

Extra Large Hybrid Wood Stove

F5200 shown with airmate.

The F5200 wood stove lets you load an impressive 90 pounds of fuel. Its clean, classic design provides the perfect backdrop to the wide view cast door giving you a large fire view that will take your breath away!

FEATURES

- EPA 2020 certified
- Large fire viewing area, with heat radiating ceramic glass
- Heavy-duty cast hinges that will never bend or break
- Solid forged steel adjustable cam lock ensures a tight door seal over time
- Front-mounted air adjustment & side mounted catalytic bypass
- Easy-to-read catalytic thermometer helps your stove reach maximum burn times & efficiency
- High-performance brick-lined firebox reflects heat
- Non-obtrusive air wash curtain keeps glass clean
- Welded ash lip will never bend or break
- Rear heat deflector allowing for closer clearances
- Mobile home and alcove approved
- 170° opening door for easy loading
- Heavy-duty 3/16 in. steel firebox
- 10-year 100% coverage on the original catalyst

OPTIONS

- Ash drawer with cover
- 2-speed blower
- Convector airmate
- Outside air kit
- Wood venting

SPECIFICATIONS

Maximum BTU*	95,000
Typical sq. ft. heated**	1,500 - 3,000
EPA Efficiency	86% LHV / 80% HHV
Max log size	22"
Burn time	Up to 30 hours
Emissions	0.9 g/h
Firebox size	4.4 cu. ft.
Flue size	8"

* Length of burn time and BTU range depend on type of wood, moisture content, climate conditions and installation. Refer to page 15 for BTU calculation method.

** Varies depending on home floor plan, house layout, heat loss of the house and quality/moisture content of wood.

WOOD TECHNOLOGY

CASCADES SERIES COMBUSTOR

Triple stage burn technology delivers a system of high-efficiency, clean combustion & maximum heat control, all with less wood, less loading & less effort.

WOOD TECHNOLOGY

PRO SERIES COMBUSTOR

With Eco-Boost technology you get more out of your wood. Offering some of the highest efficiencies available anywhere, the Eco-Boost system uses more of the available energy in the wood, resulting in less loading, less chopping, and less hauling. The triple-stage burn significantly reduces emissions below EPA 2020 standards.

CONVECTOR AIRMATE

The convector airmate scoops superheated air from the back and top of the stove and directs it to the living area in front. This heat dispersion reduces temperatures behind the unit and allows it to be installed even closer to the wall.

ASH DRAWER

The concealed and discrete ash drawer offers a convenient way to store your ashes. Use the included cover to keep the ash contained before it is disposed of outside.

NOTE: Cover is not available when installed with leg option.

MINIMUM CLEARANCE TO COMBUSTIBLE MATERIALS

Please read the section below carefully as clearances depend on whether the optional airmate convector or the rear heat deflector is installed on the stove. Measurements "From Unit" are from the top plate of the stove to a side wall or to a corner, and from the rear heat shield to a back wall.

NOTE: Be aware that local Codes and Regulations may override some clearances listed in this manual. Check with your local inspector. Clearances to combustibles are for the safety of the property. To avoid overheating and damaging the appliance these clearances should be maintained for non-combustibles also.

DESIGN INSPIRATION

“

Great products, North American made, good customer service! Our wood stove keeps us warm and cozy all winter.

CHARLENE L. – GOOGLE REVIEW

”

“

We recently replaced a clunky, unattractive, barely functional gas fireplace with a stylish, elegant, wonderfully efficient Regency wood stove, and we couldn't be happier. It heats virtually our entire 2,200 sq. ft. 2-story for hours with as few as 4 good logs. We are impressed with its design, its appearance, and are very pleased with its performance. We can't recommend it enough.

ERIKA P. – GOOGLE REVIEW

”

READY TO BUY

GUARANTEED QUALITY - BEST INDUSTRY WARRANTY

All Regency Fireplaces are manufactured in North America in our state-of-the-art manufacturing facility. When choosing to purchase a Regency wood stove, you choose high-quality craftsmanship, top-tier materials, and industry-leading support!

Add the warmth and comfort of a fireplace to your home, create memories that will last a lifetime, and rest easy knowing that your Regency wood stove is backed by the best warranty in the industry.

Every product is backed up with our lifetime limited warranty, and our hybrid products offer a 10-year, 100% warranty on the original combustor. The best in the industry!

ELECTRIC INSERTS & FIREPLACES

regency-fire.com

WHY CHOOSE REGENCY?

Regency has established itself as a provider of high-quality products for more than 40 years. As a result, our customers are able to choose from a diverse range of premium and sustainable heating options and enjoy durable products that last a lifetime.

SAFE FOR KIDS

Regency's new electric fireplaces provide the comfort and ambiance of a traditional fireplace without the need for gas lines and vents. Since there is no combustion, the glass does not heat up which makes it fitting for kid-friendly environments.

HIGH RISE FRIENDLY

With electric fireplaces, there is no need for fuel lines, chimneys, or exterior venting which allows them to be installed into virtually any space. As a result, they are the perfect candidate for apartments and condos.

EASY INSTALLATION

Choose between a plug or hardwire kit (provided with each fireplace), to have endless spaces as installation options. This trouble-free installation also presents benefits in the form of cost savings and minimal time to set up.

Why Regency? Because it's *more* than a fireplace!

Studio Electric Fireplaces

Mesmerizing flame visuals. Ultra-realistic, artisanal log sets. Atmospheric mood lighting. The Studio collection brings all this and so much more to your living room at the touch of a button.

The Studio's remarkably realistic fuel effects are the result of our decades of experience working with real wood burning stoves and fires. For the utmost realism, sections of the log sets glow when the fire's flames and ember bed are activated, just like real burning logs. All Studio sizes come with a Split Oak log set. For a unique touch, an optional Birch log set creates an alternative but equally captivating display.

Studio Fireplaces

Enchanting Flame Visuals •

CHOOSE YOUR SIZE

Available in three sizes, the convenience of electric heat can be added to even the smallest spaces of your home.

Studio ES105

44" W x 19" H x 8" D

Studio ES135

56" W x 19" H x 8" D

Studio ES165

65" W x 19" H x 8" D

IMMERSIVE EMBER BED UP-LIGHTING

The Studio's Chromalight up-lighting system shines through the fire's fuel bed and illuminates the log set from below. In addition to a natural amber glow, the ember bed up-lighting can be set to a range of different colours to create a bespoke display. There is also the gradually changing Spectrum mode, which transitions through each colour.

ENCHANTING FLAME VISUALS

Flame effects can be customized to suit your mood, with three combinations of varying tones and intensity settings. Choose from a vibrant flame picture that casts a rich glow over a darkened room, or opt for some background ambiance – great for when you're watching a movie.

Studio ES135 with a Split Oak log set

Convenient Control •

Both the innovative App and Remote Control allow you to adjust the Regency Electric Fireplace's array of Chromalight® visuals and convenient heating settings.

NOTE: App is not available for Studio Fireplaces. Not all functions are available on Skope & Studio Fireplaces. Refer to specific product manuals for detailed remote functions.

MAIN FLAME AND FLAME PALETTE

The primary and secondary flames can be independently set to eight different colours or the Spectrum Mode, a rolling cycle that gradually transitions through all colours. Speed and brightness can be tailored to create a customized visual.

GLOWING EMBERS

Beneath the logs and ember effects, the up-lighting LEDs can be set to eight colours to either match or contrast with the flames. Like the flames, there is also a Spectrum Mode to cycle through each colour as well as adjustable brightness for all settings.

NATURAL LOG LIGHTING

Burnt Ember Logs illuminate the Oak or Birch log sets, and feature 12 colours and a Spectrum Mode setting with adjustable brightness.

DOWN-LIGHTING

Hidden in the top of the firebox are discreet down lighting LEDs which bathe the fuel effects in eight different hues to either match or contrast with the other settings, adding to the immersion.

SYNCHRONISE VISUALS

The Sync feature lets you synchronise the Ember bed up-lighting and down-lighting with the Main Flame colour, to easily create a corresponding display.

QUICK START PRE-SETS

Need instant ambiance? Select from any of the six stunning pre-sets ranging from natural to contemporary. You can also save up to three custom combinations with your preferred settings for easy access.

OPTIONAL MOOD LIGHTING

Effortlessly control the optional Mood Lighting system using either the remote control or the app. Choose from 13 different colours or the gradually changing Spectrum mode to transition through each colour.

ADAPTIVE START CONTROL

Adaptive Start allows the fireplace to automatically turn on up to 45 minutes in advance of a pre-set time to reach the desired room temperature, ready for when you sit down and relax.

TIMERS AND SCHEDULING

The fireplace also allows you to programme individual day and weekly schedules for both flames and heat, providing warmth or ambience exactly when you want it.

OPEN WINDOW DETECTION

Should ambient room temperatures drop by 4°C within a space of five minutes, like when a window is opened, the fireplace's heater will automatically turn off to save energy. Heating can be easily resumed with the remote control or app.

THERMOSTATIC HEATING

Choose your preferred room temperature and the fireplace does the rest for you. Select between 15°C and 25°C and the fire's 1.5 kW heater will adjust its power to reach the desired level as efficiently as possible. Turn off the heat entirely to enjoy the visuals during the warmer months.

Fireplace & TV Size Guide •

SUGGESTED SIZING FOR YOUR FIREPLACE AND TV

Choosing the size of your electric fireplace and your TV will come down to both the space you have available and your personal preference. Actual TV sizes vary across manufacturers, and the way your TV is fitted (for example into a cavity recess) will also impact the way it looks in relation to your Regency fireplace. Your retailer will often be able to help you size up your fireplace and TV to achieve the perfect look.

MODEL	ONYX			SKOPE				STUDIO		
PRODUCT NAME	EX110	EX150	EX190	E110	E135	E150	E195	ES105	ES135	ES165
TV SIZE*	43" – 55"	55" – 65"	65" – 75"	43" – 55"	50" – 65"	55" – 65"	65" – 75"	43" – 55"	50" – 65"	65" – 75"

*TV sizes refer to the standard diagonal screen dimension that TV manufacturers state when describing the size of their products. If sizing your existing flat screen TV, measure diagonally from the top left of the screen to the bottom right to find the TV's advertised size. We also recommend measuring the width and height of your TV to ensure adequate proportions that align with your desired electric fireplace model and size.

NOTE: Framing may be constructed of combustible material (i.e. 2 x 4/2 x 6) and does not require steel studs. The appliance must be installed on a flat, solid, continuous surface (e.g. wood, metal, concrete) which must be the full width and depth of appliance. This may be the floor, or raised up on a platform to enhance its visual impact. Measurement (B) does not include height of platform base if raised off the ground. Example 1/2" thick platform base = 21" framing height.

PELLET INSERTS & STOVES

regency-fire.com

WHY CHOOSE REGENCY?

At Regency, our past 40 years have been focused on providing a high-level of service while building high-quality and reliable products that our customers can enjoy for years to come.

HIGH-QUALITY

Producing a high-quality product has been at the very heart of what we do from when that very first stove rolled off the production line over 40 years ago to today. We are ever-focused on producing quality products for our customers that will last for years to come.

BEST WARRANTY

A fireplace should be reliable and should work right the first time it is used, and the 1,000th. A core part of our business is making sure that we are building long-lasting, durable, high-quality products; we back-up that commitment with the industry's best warranty on all our products.

COST-EFFICIENT

Never before have home heating costs been higher. Turn your furnace way down and zone heat with our beautiful, reliable and convenient Regency products. Not only can you cut your fuel bills in half, but you'll be able to enjoy the timeless comfort of a Regency fire.

Why Regency? Because it's **more** than a fireplace!

REGENCY HAMPTON® GCi60 & GC60

Biomass Pellet Insert & Stove

Hampton GCi60 biomass pellet insert shown with ceramic log set.

COST-EFFICIENT HEATING

Our Hampton biomass pellet collection beautifully combines the best features of traditional cast iron with the latest developments in alternative fuel technology. Designed to burn wood, corn, wheat, and barley pellets, these models offer very cost-effective home heating. Supported by a patent-pending low maintenance burner, the Hampton GCi60 and GC60 require less cleaning & provides a high heat output.

SPECIFICATIONS	GCi60	GC60
BTU input (on high)*	55,000	55,000
BTU input (on low)*	10,000	10,000
Emissions (grams/hour)	1.82 g/hr	1.82 g/hr
Fuel capacity (hopper size)	60 lbs	60 lbs
Burn time (typical)	up to 36 hrs.	up to 36 hrs.
Room size / Area heated**	up to 2,500 sq. ft.	up to 2,500 sq. ft.
Weight	500 lbs	504 lbs
Max. power usage (ignitor on)	504 Watts	504 Watts
Operating power usage	200 Watts	200 Watts
Vent size	4"	4"
Viewing area	232 sq. in.	232 sq. in.

MINIMUM FIREPLACE OPENING (GCi60 ONLY)	
Width (front)	27"
Height	23"
Depth	16"

* Figure will vary with individual conditions and fuel quality.

** Figure will vary with floor plan, house layout / heat loss of the house and quality of pellets used.

Hampton GC60 biomass pellet stove shown with ceramic log set.

STANDARD FEATURES

- Ability to burn a variety of biomass pellet fuels: high grade to low-grade wood, corn, wheat, and barley
- Durable cast-iron exterior provides beautiful, radiant heat
- Fluted cast-iron liner
- Low maintenance burner with agitator rod in the burn pot
- Reduced cleaning intervals compared to other pellet stoves
- Quick start automatic (400 watts) ignitor with air pump
- 300 CFM convection variable speed blower
- Standard wall thermostat
- Concealed, easy-to-use controls with Tri-mode operating system (Manual – Hi/Lo – Auto/Off)
- Advanced air wash system for cleaner glass
- Mobile home approved (GC60 only)
- Large concealed ash drawer

OPTIONS

- Ceramic one piece log set
- Oversize filler panel (GCi60 only)
- Service rail kit (GCi60 only)
- High efficiency adaptor (GC60 only)

Note: Qualifies for U.S. Biomass Tax Credit when installed in accordance to the manual.

REGENCY GREENFIRE™ GF55 & GF55

Wood Pellet Insert & Stove

Greenfire GF55 pellet insert with antique copper door overlay and ceramic log set.

RELIABLE PELLET TECHNOLOGY

Regency Greenfire pellet stoves and home heater inserts are quiet, reliable, and built to last. The large wrap-around style glass viewing area provides a maximum view of the fire from all over the room. Designed to operate automatically with a standard ignitor, the GF55 and GF55 invite you to control the comfort of your home with a simple push of a button.

SPECIFICATIONS	GF55	GF55
BTU input (on high)*	45,000	45,000
BTU input (on low)*	12,000	12,000
Emissions (grams/hour)	0.89 g/hr	0.89 g/hr
Fuel capacity (hopper size)	55 lbs	55 lbs

Greenfire GF55 pellet stove shown with brushed nickel door overlay and ceramic log set.

STANDARD FEATURES

- Large arched bay door
- Black door overlay
- Steel fluted liner panels
- Hidden door handle
- Decorative black grilles
- Heavy-duty heat exchanger
- Large full pedestal ash drawer (GF55 only)
- Large concealed ash drawer (GF55 only)
- Large 55 lb hopper with easy access lid and recessed handle
- Adjustable hopper height (GF55 only) from 22.75" to 19.5"
- 160 CFM convection variable speed blower
- Concealed, easy-to-use controls with Tri-mode operating system (Manual – Hi/Lo – Auto/Off)
- Quick start ignitor (300 Watts)
- Mobile home approved (GF55 only)

OPTIONS

- Antique copper door overlay
- Brushed nickel door overlay
- Ceramic one piece log set
- Regular or oversize faceplate (GF55 only)
- High efficiency adaptor

Note: Qualifies for U.S. Biomass Tax Credit when installed in accordance to the manual.

REGENCY GREENFIRE™ GF40

Wood Pellet Stove

Greenfire GF40 shown with hearth pad.

MODERN, COMPACT DESIGN

The GF40 small freestanding pellet stove features a modern, compact design that heats your room evenly and quickly. Put up your feet and enjoy the warmth, while the quick start automatic ignitor and large, multi-tube heat exchanger do all the work.

SPECIFICATIONS	GF40
BTU input (on high)*	30,000
BTU input (on low)*	8,000
Emissions (grams/hour)	0.48 g/hr
Fuel capacity (hopper size)	up to 67 lbs
Burn time (typical)	up to 36 hrs.
Room size / Area heated**	up to 1,200 sq. ft.
Weight	230 lbs
Max. power usage (ignitor on)	475 Watts
Operating power usage	215 Watts
Vent size	3"
Viewing area	124 sq. in.

* Figure will vary with individual conditions and fuel quality.

** Figure will vary with floor plan, house layout / heat loss of the house and quality of pellets used.

Note: Qualifies for U.S. Biomass Tax Credit when installed in accordance to the manual.

STANDARD FEATURES

- Ability to burn a variety of pellet fuels - high grade to low grade wood pellets
- Low maintenance burner and easy to clean burn pot
- Concealed, easy-to-use controls with Tri-mode operating system (Manual - Hi/Lo - Auto/Off)
- Large multi-tube heat exchanger
- 130 CFM convection variable speed blower
- Mobile home approved
- Quick start automatic (400 watt) ignitor
- Large concealed ash drawer
- Standard matching hearth pad
- High efficiency adaptor (optional)

CLEARANCES

MASONRY & FACTORY BUILT FIREPLACE CLEARANCES

The minimum required clearances to combustible materials when installed into a masonry fireplace are:

Adjacent Side Wall (from center)	Mantel (12") (bottom unit)	Top Facing (top faceplate)	Adjacent Side Wall (from faceplate)	Min. Hearth Extension (from door opening)	Min. Hearth Side Extension (from side of unit)
A	B	C	D	E	F
24"	33"	0"	2"	6"	6"

NOTE: Clearances are measured from the high efficiency adaptor, if installed. All product specifications are subject to change without notice. Before installing refer to the relevant product manual for full and up to date information.

PELLET PRODUCT

A Green Choice

RENEWABLE ENERGY

Pellets are derived from renewable natural resources. Well-managed forests and crops offer a renewable, sustainable source of energy that helps reduce greenhouse gas emissions and help to reduce our dependency on fossil fuels.

PELLET BURNING IS CARBON NEUTRAL

As plants grow, they absorb carbon dioxide from the atmosphere. When plants die and decompose, the carbon stored in them is released into the atmosphere as carbon dioxide. Burning pellets is carbon neutral because burning pellets produce the same amount of carbon dioxide as they absorb during their life cycle.

EPA CERTIFIED

All Regency pellet stoves and inserts have been tested and certified to meet, and many times exceed, the EPA's 2020 guidelines for clean air emissions.

INNOVATIVE FIREPLACE SOLUTIONS

regency-fire.com/professionals

Why Choose Regency?

At Regency Fireplace Products, we understand that every project is unique, and every detail matters. That's why we have been the trusted choice for architects, builders, and designers for over 45 years.

Here's why you should choose Regency for your next construction or renovation project:

UNRIVALED QUALITY

Our commitment to excellence in design, craftsmanship, and functionality ensures that our products stand the test of time, providing both beauty and performance.

INNOVATIVE TECHNOLOGY

We leverage cutting-edge technology to create fireplaces that not only enhance the aesthetics of a space but also offer unmatched efficiency and environmental sustainability.

DIVERSE RANGE OF OPTIONS

Whether your design calls for a dramatic wood-burning fireplace or a sleek, modern gas fireplace, we offer a wide range of styles and configurations to suit any project's needs.

EXCEPTIONAL CUSTOMER SUPPORT

Our dedicated team is here to assist you every step of the way, from product selection to installation and beyond. We pride ourselves on providing personalized service and expert guidance to ensure your project's success.

How We Help Professionals

At Regency, we understand the challenges that architects, builders, and designers face when specifying fireplace products for their projects. That's why we go above and beyond to support professionals like you in every aspect of your work:

STREAMLINED PROCESS

Our efficient ordering and delivery process ensures that projects stay on schedule, minimizing delays and maximizing productivity. We understand the importance of meeting deadlines and strive to make the process as smooth and seamless as possible.

EDUCATIONAL RESOURCES

Earn CEU credits with our variety of educational resources through our partnership with AEC (Architecture, Engineering, and Construction) Daily and the AIA (American Institute of Architects). We help the professional community grow their knowledge and expertise through our tailored seminars both online and through lunch and learning opportunities.

TECHNICAL EXPERTISE

Our team of technical experts is available to provide support and guidance throughout the project lifecycle. Whether you need assistance with product specifications, installation instructions, or troubleshooting, we're here to help. Submit your plans for review for a quick turn-around time and helpful suggestions to ensure your project goes smoothly.

ARCHITECT AND SPECIFICATION LIBRARIES

We collaborate with leading design associations to provide seamless 3-part specifications and offer a robust library of BIM files, ensuring our products integrate effortlessly into design and construction workflows. By actively participating in trade and design shows, we stay connected with industry professionals and trends, making our product information readily accessible, accurate, and up to date.

INSIDE SALES TEAM

Our inside sales team is dedicated to helping professionals like you by reviewing plans and working closely with you to ensure that your fireplace specifications meet your project requirements. We understand the importance of getting every detail right and are committed to providing the support you need to achieve your vision.

Our Resources

At Regency, we believe in providing architects, builders, and designers with the resources they need to succeed. Explore our dedicated resources for professionals:

1

FOR BUILDERS

Visit our builder's portal to access product specifications, installation guides, and project galleries. Whether you're working on a residential development or a commercial project, we have the tools and resources you need to bring your vision to life.

2

FOR DESIGNERS

Discover inspiration and tools tailored for designers, including design trends, case studies, and visual resources. Whether you're designing a luxury home or a boutique hotel, we have the resources you need to create breathtaking spaces. Contact us if you are interested in becoming a part of our Designer Showcase.

3

FOR ARCHITECTS

Access comprehensive resources for architects, including CAD drawings, technical data, and design specifications. Whether you're designing a new building or renovating an existing space, our resources can help you bring your vision to life.

4

DIGITAL TOOLKIT

Explore our digital toolkit, featuring high-quality images, brochures, and videos to enhance your presentations and proposals. Our digital toolkit makes it easy to use Regency Products to inspire your clients.

5

BIM FILES

Simplify your design process with our BIM files, providing accurate 3D models and data for seamless integration into your projects. Our BIM files save you time and effort, allowing you to focus on what you do best – creating stunning spaces. Files are available on our website or directly in leading BIM libraries for your software.

Commercial Use

Our products are ideal for commercial applications, offering unparalleled design flexibility. With advanced technologies like our patented Cool Wall System™ and Power Venting, you can unleash your creativity and craft unique, statement-making finishes. Plus, our systems accommodate long vent runs, making it easy to exhaust outside of large buildings.

City Series Gas Fireplaces and our Grandview G1200 offer the XL fireplace experience and the flexibility needed for commercial projects - particularly well suited for hotels, restaurants and condominium shared spaces.

Technologies

Flexible Venting Options

Regency's Power Vent systems have longer vertical and horizontal vents. Due to this functionality, designers and architects are able to craft applications with freedom and unparalleled flexibility.

Inline Power Vent system shown vertical vent run

Inline Power Vent system shown horizontal vent run

End of line flush horizontal Power Vent system shown in a negative vent run

INLINE POWER VENT SYSTEM

- Allows for both vertical and horizontal termination (horizontal terminations can use Regency's AstroCap)
- Vent runs up to 72 ft. (rigid pipe approved for up to 72 ft. & flex pipe approved for up to 40 ft.)
- Use up to six 90° elbows or twelve 45° elbows
- Use flex vent or rigid pipe
- Access panel required for servicing inline Power Vent

Cool Wall System™

Our patented Cool Wall System™ helps maintain the perfect wall surface temperature around the fireplace. The floating glass safety barrier draws in cool air which is split between the heat exchanger and the inside wall surface. Within the heat exchanger, the air is heated and then directed out the back of the fireplace.

Unlimited finishes.
No limits.
No restrictions.

Designed to maintain a cool wall to accommodate custom finishes right to the edge of your fireplace. Complete your fireplace aesthetic with:

- Wood
- Marble
- Glass
- Metal
- Tile
- Fabric
- Wallpaper
- Textured Panel
- Embossed Panel
- Faux Stone

3D Wall Panel

Herringbone Wood Panel

Controllable Warmth

FLEXIBLE VENTING OPTIONS

Regency's patented Cool Wall System™ releases heat at ceiling level which helps evenly distribute the airflow throughout the living space. Through this natural convection of air, excessive radiant heat is reduced enabling users to enjoy the utmost comfort and lounge in the warmth of beautiful flames more often.

- Enjoy the flexibility to choose from 3 different chase vent solutions
- Release warmth into the room discreetly

Front

Side(s)

Top

APP CONTROL

Put the power of flame directly in your hand. Our Proflame Connect Plus App allows precise regulation of the fireplace, turning it on/off, adjusting flame height, and setting temperature directly via smartphone. An optional Wi-Fi enabled module provides the ultimate fireplace control.

Heat Distribution Kit

Increase the effectiveness of your fireplace by dispersing warm air from the fireplace to remote locations in the same room or other rooms in your home by using the Heat Wave™ power duct system.

Outdoor Gas Fireplaces

Design your own outdoor fireplace

Enjoy the drama of beautiful wide-angle flames or the cozy atmosphere of a traditional fire, but outdoors. Customizable burners, see-through linear models, and traditional design options offer versatile alternatives for elegant outdoor living spaces. Create flexible living and outdoor rooms to meet the unique needs of your customers with Regency's lineup of outdoor gas fireplaces.

G1200 shown with driftwood

HZO60 shown in single-sided application

Features

Enjoy all the benefits of the Grandview series with an outdoor conversion kit. Create stunning fire features with our collection of burners, or build see-through outdoor fireplaces with our linear range - the possibilities are endless. Build outdoor spaces your clients will love and extend patio season with our full range of outdoor products.

BURNERS

The Regency Plateau Outdoor Burner is as limitless as it is beautiful, with many design possibilities. This linear burner can be installed end to end & matched with our other burners to create various lengths: 30", 60", 80", or 100"

OUTDOOR FIREPLACES

Regency's outdoor fireplace extends living spaces and adds to the enjoyment of the patio. Choose from single sided or see-through models and the option of either clean edge installation or use of a decorative surround. Add a manufactured framing kit to make install a breeze.

GRANDVIEW OUTDOOR

Add the flexibility and beauty of the Grandview series to outdoor living spaces - featuring mix & match accessories, Cool Wall System™, & same TV-friendly clearances. Elevate your outdoor spaces with the Grandview series outdoors.
